## 16pf<sup>®</sup> Personality Assessment

### Instructor's Package

This turn-key system provides all the materials needed to educate your students on the development, psychometric properties, and interpretation of the 16pf<sup>®</sup> Questionnaire.

The 16pf Instructor's Package includes PowerPoint<sup>®</sup> presentation slides, plus assessment and report manuals for classroom reference and instructional use.

We also provide every student in your class with a free test administration and interpretive report so they can personally experience the 16pf Questionnaire. As each student completes the online questionnaire, PAN scores the test, generates the interpretive report that you selected, and emails the report to you.

#### Who is eligible?

Instructors who conduct a graduate-level course in Personality, Assessment, or Measurement; or a graduate-level course with an applied focus on personality leading toward a degree in Psychology, HR Administration, Counseling, or an Executive MBA are eligible for the 16pf Instructor's Package.

#### What does the Instructor's Package include?

- Presentation Slides for the instructor
- Manuals for classroom reference: *16pf Fifth Edition Questionnaire Manual* and the manual for the selected interpretive report
- Online administration of the *16pf Questionnaire* and an interpretive report of the professor's choice for each student. Report options include:
  - ✓ *16pf Career Development Report*
  - ✓ *16pf Management Potential Report*
  - ✓ *16pf Interpretive Report*

#### How do I request materials for my class?

Send a written course description and the approximate class size on official university letterhead with the instructor's name, signature, email address, and daytime phone number.

### Research Assistance

A research assistance program is available to both professors and graduate students who are conducting applied research using the 16pf Questionnaire.

Approved research proposals will receive free or discounted test materials and scoring. We only ask that you provide us with your research data and a report summarizing the results, and allow us to share your findings with other professionals.
